

AmRisc's Elite Producer Program general rules and guidelines are as follows (AmRisc reserves the right to change the rules at any time):

- AmRisc appointments and Elite status will be achieved independently for each office of an appointed producer (hereafter "Producer - Office".)
- Elite Status is achieved on a yearly basis based on the Gross Written Premium production in the prior calendar year.
- NEW BUSINESS is defined as: New business to AmRisc requiring a newly incepted policy. Project-phase builders risk policies are considered NEW Business. Permanent property insurance incepting at the conclusion of a builders risk project is also considered NEW Business. New locations/risks endorsed onto an existing policy follow the commission treatment of the in-force policy to which the endorsement is attached. AmRisc renewals that change brokers via AOR/BOR are defined as RENEWAL BUSINESS.
- All GWP qualification will be based on AmRisc records. Producers can request an audit trail of their accounts if they can demonstrate that the written premium per AmRisc's records is more than 5% off from their records. Premiums may be accounted for in the period they are booked rather than the period they are bound.
- Quarterly, AmRisc will make available the GWP achieved Year-To-Date and the corresponding Elite Producer Status. Elite status levels will be posted to our website at www.amrisc.com. If sufficient YTD GWP is achieved to obtain a higher status level in the quarterly update then the increased benefits will be recognized upon the quarterly posting.
- Appointed Producer-Offices need to achieve at least Gold Elite Status or higher within the first year of appointment. If not, AmRisc may discontinue their appointment 45 days after the end of the any quarter in the second year.
- Accounts will be labeled and handled according to the Producer Office's Elite level status at the time the submission is received and logged into AmRisc.
- Producer-Offices (from appointed producer companies) that have not been appointed for at least 12 months can submit a request for appointment or re-appointment to their Relationship Manager. This request should include AmRisc's Producer Application, including their in-force commercial property premium and the premium level which can be committed to AmRisc over the next 90 days

and 12 months. After 90 days, if the Office is not on track to achieve at least Gold level, the appointment will be discontinued effectively immediately.

- Each producer company with over \$10,000,000 GWP on a company basis will be able to designate a “High Potential” Office which will start at Gold Status for the remainder of the calendar year.
- Accounts that are not paid when due will be deducted from the GWP determination. Once DNOC is sent, the premiums are deducted regardless of whether the premiums are subsequently collected.
- An AmRisc Relationship Manager will be assigned for each producer at the company level. Questions should be addressed to your company’s assigned Relationship Manager.
- AmRisc reserves the right to discontinue the program and / or change the guidelines, benefits and rules at any time. Benefits and priority status do not represent any contractual agreement or liability on AmRisc’s part.
